DEFENCE

- On March 13, the defence ministry - signed a Rs.934 crore contract for a “normal refit” of the old Russian-origin submarine INS Sindhukirti with the Hindustan Shipyard Limited (HSL) at Visakhapatnam

- ✓ Upon the completion of the refit, the Sindhukirti Submarine will be battle-ready and will join the active submarine fleet of the Indian Navy.

- ✓ The project involves more than 20 micro, small and medium enterprises (MSMEs) and would lead to employment generation of 1,000 man-days per day for the project duration
 - ✓ Earlier, the submarine had spent more than nine years between 2006-2015 at HSL for a mid-life refit
 - ✓ The refit was planned to be completed in three years, but eventually took nine years because of the mismanagement on the part of the shipyard and the delay caused by Russian experts
 - ✓ INS Sindhukirti is the third Kilo Class Diesel Electric Submarine and is one of the oldest submarines of the Indian Navy and was acquired from the erstwhile Soviet Union back in 1990.
 - ✓ The submarine was commissioned on June 7, 1990 and has served the country in various capacities since then.
 - ✓ Like other Kilo class submarines, this is slower than nuclear submarines, can carry 70 personnel and has the capability to remain on a mission for almost 40 days
 - ✓ The submarine is named after the legendary 4th century AD king, Vikramaditya, as Sindhukirti means “Fame of the Ocean”
 - ✓ INS Sindhukirti has taken part in a number of naval exercises and operations over the years, including Operation Parakram against Pakistan in 2001-02.
 - ✓ In 2008, the submarine collided with a merchant vessel off the coast of Mumbai, causing damage to the submarine's periscope
 - ✓ Sindhukirti has a submerged displacement of 1860 tonnes and a length of 67.5 metres.
 - ✓ When submerged, the submarine has a top speed of 20 knots (around 37kmph) and can dive to a depth of 300 metres
